Productivity: Google Workspace, Microsoft Office
AI: Claude, ChatGPT, Lovable, Cursor

WORK EXPERIENCE

Self-Employed, Philippines — Operations Manager & Consultant

AUGUST 2024 – MAY 2026

- Managed daily operations for a restaurant and a distribution business, covering staffing, suppliers, inventory, cash flow and financial reporting.
- Coordinated sourcing with importers, suppliers and shipping providers, consolidating orders to keep deliveries on schedule and freight costs down.
- Designed a sales and inventory dashboard that tracked stock against par levels, which reduced stockouts and gave clear data for purchasing decisions.
- Set up the POS system, cash flow tracking and financial reports to show sales performance and overall business health at a glance.
- Wrote SOPs for every area of the business, bringing corporate-level structure to a small business.
- Introduced quarterly performance reviews and DISC assessments to understand team strengths, improve communication and place staff in roles that suit them.
- Led two consulting projects covering menu development and product costing, staff recruitment and training, and SOP creation.

U.S. Luxury Furniture eCommerce Brand (Remote) — Claims Specialist

JULY 2022 – AUGUST 2024

- Processed an average of 35 claims a week against a team target of 20, with complete, accurate documentation on every file.
- Achieved the highest repair-to-replacement ratio on the team by negotiating repairs first, resolving about 80% of claims through repair instead of replacement.
- Managed the full claims lifecycle for damaged, defective and misrepresented furniture orders, from intake and documentation review through resolution and payout.

- Investigated each claim by reviewing photos, shipping records and product documentation to determine liability and the most cost-effective resolution.
- Negotiated settlements with vendors, manufacturers and carriers, including repairs, replacements, partial refunds and credits, keeping customers satisfied and controlling costs.
- Built claims reports and dashboards tracking volume, resolution time, average cost per claim, revenue impact and margins. Management used them to set team KPIs and flag high-risk products and vendors.
- Trained the claims team on investigation methods, evidence gathering and fair resolution practices.
- Served as the main point of contact between customers, delivery teams, designers and project managers, keeping everyone updated on case status and next steps.

Accenture, Philippines — Technical Support Associate
DECEMBER 2019 – JULY 2022

Lenovo Group Limited

- Provided Level 2 technical support for Lenovo Legion gaming and ThinkPad business devices, resolving complex hardware, software, connectivity and performance issues through remote diagnostics.
- Handled about 20 calls a day plus concurrent chats from customers escalated after standard troubleshooting, consistently meeting the 80% CSAT target.
- Owned each case from diagnosis to resolution, including parts ordering, technician scheduling, service provider coordination and customer follow-up.
- Supported business accounts and IT administrators within case-specific SLAs, aiming for prompt resolution.

Wix.com Ltd.

- Joined Wix's first support team outside the U.S. and finished top of the two-month training class.
- Worked with Wix developers in San Francisco on early bug reports and product fixes.
- Resolved about 30 inquiries a day covering DNS records (A, CNAME, MX, TXT/SPF/DKIM), nameserver updates, hosting, SSL certificates and third-party mailbox setup.
- Coordinated domain transfers with external registrars and troubleshot propagation delays.

J.P. Morgan Chase, Philippines — Fraud & Claims Dispute Specialist
APRIL 2017 – NOVEMBER 2019

- Promoted from Telephone Banker to Fraud & Claims Dispute Specialist, independently investigating unauthorized transactions, disputed charges, payment issues, fees and account discrepancies.
- Handled 60–80 inbound calls a day on account inquiries, card issues, transactions, payments and disputes, consistently scoring 90%+ CSAT against an 85% target.
- Worked across multiple banking systems at once to research accounts, process transactions and document cases in real time.
- Recognized by Quality Assurance in multiple months for accuracy, compliance and call-flow adherence.
- Followed strict bank security, privacy and compliance protocols, including customer authentication and verification.

EDUCATION

- **Far Eastern University** — Bachelor of Science in Business Administration (Class of 2016)
- **University of Santo Tomas** — Coursework toward Bachelor of Science in Economics (2012–2013)
